WELCOME MESSAGE FROM THE CHAIRMAN

**Dear Participants, Educators, Judges,
Partners and Esteemed Guests,**

It is my great pleasure to welcome all of you to the
**International Information Management Online
Showcase (IIMOS) 2026.**

IIMOS 2026 provides a dynamic platform for showcasing creativity, innovation, and the effective application of information and technology. More importantly, it brings together talented individuals from different educational levels and backgrounds to exchange ideas, demonstrate innovative solutions, and inspire one another.

This year, we are delighted to witness the enthusiastic participation of young innovators from Primary and Secondary Schools, alongside participants from the Tertiary and Expert categories. Their projects reflect not only creativity and technical ability, but also the courage to explore new ideas and develop solutions to real-world challenges.

I would like to express my sincere appreciation to our distinguished panel of judges for contributing their time, expertise, and professional insights throughout the evaluation process. My heartfelt gratitude also goes to our organising committee, strategic partners, educators, mentors, parents, and everyone who has contributed to the successful organisation of IIMOS 2026.

To all participants, regardless of the awards you receive, your willingness to transform an idea into an innovation is already an achievement worth celebrating. I hope IIMOS will encourage you to continue exploring, creating, and challenging the boundaries of what is possible.

May IIMOS 2026 continue to serve as a platform where ideas are discovered, innovation is celebrated, and future innovators are inspired.

**Welcome to IIMOS 2026,
and congratulations to all participants.**

**Ts. Dr. Mohamad Rahimi
Mohamad Rosman**
Chairman, IIMOS 2026

OFFICIATING SPEECH FROM THE HEAD OF STUDIES

**Assalamualaikum Warahmatullahi Wabarakatuh
and warm greetings to everyone.**

It is my great honour and pleasure to welcome all participants, educators, distinguished judges, organising committee members, partners, parents, and guests to the **International Information Management Online Showcase (IIMOS) 2026**.

IIMOS represents more than a competition. It is a platform that encourages creativity, critical thinking, digital competency, and innovation among participants from different educational levels. Through this showcase, participants are given the opportunity to transform ideas into meaningful solutions and demonstrate how information, knowledge, and technology can contribute towards addressing real-world challenges.

I am particularly delighted to see the participation of young innovators from Primary and Secondary Schools, together with participants from the Tertiary and Expert categories. Their involvement demonstrates that innovation has no age limit. With the right encouragement, exposure, and opportunities, every individual has the potential to become an innovator and contribute positively to society.

I would like to extend my sincere appreciation to the organising committee, distinguished panel of judges, strategic partners, teachers, lecturers, mentors, and parents whose dedication and support have made IIMOS 2026 possible. Your commitment towards nurturing creativity and innovation is deeply valued.

To all participants, I encourage you to view this showcase not merely as a competition, but as an opportunity to learn, collaborate, exchange knowledge, and develop confidence in presenting your ideas to a wider audience. Every project presented at IIMOS represents dedication, creativity, and the courage to explore new possibilities.

May the experience gained through IIMOS 2026 inspire all of you to continue pursuing knowledge, embracing technology, and creating innovations that can make a meaningful difference to our communities and society.

With great pleasure, I hereby officiate the **International Information Management Online Showcase (IIMOS) 2026**.

**Congratulations to all participants,
and I wish IIMOS 2026 every success.**

Dr. Nasuhar Binti Ab Aziz
HEAD OF STUDIES,
FACULTY OF INFORMATION SCIENCE
